

## Landscape Architect - Job Posting

DTAH is an award winning landscape architecture, architecture, and urban design firm recognized for projects that contribute to the public realm. We provide the highest level of professional service in a truly integrated studio setting that is stimulating, disciplined, congenial and enjoyable: we work hard, we produce great work, and we take pride in our accomplishments.

We are currently offering a full-time position for an experienced Landscape Architect. The ideal candidate enjoys being in a creative environment, loves working collaboratively and appreciates the culture of a small design office.

Qualifications and job description to include:

- Minimum 5 years of experience;
- OALA full membership preferred;
- Strong project management skills with experience in large, complex multi-disciplinary projects;
- Ability to manage multiple projects with consecutive/overlapping schedules and delivery dates;
- Manage, direct and coordinate presentations, graphics and detailed design;
- Experience as a prime consultant and subconsultant on complex contract documentation and contract administration;
- Project types include streetscapes, heritage landscapes, children's play environments, water features, public parks and plazas, waterfronts, transit projects, and institutional/campus landscapes;
- Must be proficient in CAD, experience with Revit and Microsoft products at a minimum;
- Strong communication skills are essential.
