

Landscape Architect

DTAH is an award-winning landscape architecture, architecture, and urban design firm recognized for projects that contribute to a memorable public realm. We provide the highest level of professional service in a truly integrated studio setting that is stimulating, disciplined, congenial and enjoyable. We work hard, we produce great work, and we take pride in our accomplishments.

We are currently looking for a Designer/ Landscape Architect to fill a full-time position in our studio. Project types will include public parks and plazas, waterfronts, transit infrastructure, ecological design, institutional/campus landscapes.

- Minimum 3+ years of experience with full OALA membership preferred;
- Strong design /graphic skill sets
- Excellent communication skills, a good team member;
- Strong time-management skills with experience in complex, multi-disciplinary projects;
- Ability to balance multiple projects with consecutive/overlapping schedules and delivery dates;
- Experience and comfort with producing CAD/Details and Construction Documents;
- Advanced AutoCAD and BIM/Revit skills; experience in SketchUp and MicroStation an asset.

Studio

DTAH is a highly collaborative, energetic practice that also likes to have fun. We share a profound commitment to contextual, responsible, meaningful and beautiful design, and offer staff a variety of opportunities for professional development as well as social events. COVID-19 measures are currently in place (further details can be provided).
